

Montgomery County Department of Police

Automated Traffic Enforcement Unit

SPEED CAMERA CORRIDORS

NOTE: Blocks listed may include both directions of travel. Additional sites added October 21, 2026 are indicated in **RED**.

The Automated Traffic Enforcement Unit (ATEU) of the Montgomery County Police Department follows Maryland speed camera laws, Statute §21–809, that uses a tiered fine system for vehicles traveling 12 miles per hour (MPH) or more over the posted speed limit in school zones and residential areas. In school zones the hours of enforcement are from 6AM (0600hr) to 8PM (2000hr) on weekdays – and where there is a variable speed limit the ATEU enforces to the higher speed limit. Under Maryland General Assembly guidelines, Statute §21–809, the fine structure is scaled based on the vehicle speed over the limit:

12–15 MPH over: \$40
16–19 MPH over: \$70
20–29 MPH over: \$120
30–39 MPH over: \$230
40+ MPH over: \$425

Montgomery County is one of the first county governments in the United States to initiate a Vision Zero plan that allocates resources to eliminate serious injury and fatal collisions on County roads for vehicle occupants (drivers and passengers), pedestrians, and bicyclists with the High Injury

Network (**HIN**) and Vulnerable Road Users (**VRU**) on designated road corridors. The HIN and VRU corridors are not limited by speed limit or location in either residential or commercial areas.

Montgomery County Department of Police

Automated Traffic Enforcement Unit

SPEED CAMERA CORRIDORS

NOTE: Blocks listed may include both directions of travel. Additional sites added October 21, 2026 are indicated in **RED**.

The Automated Traffic Enforcement Unit (ATEU) of the Montgomery County Police Department follows Maryland speed camera laws, Statute §21–809, that uses a tiered fine system for vehicles traveling 12 miles per hour (MPH) or more over the posted speed limit in school zones and residential areas. In school zones the hours of enforcement are from 6AM (0600hr) to 8PM (2000hr) on weekdays – and where there is a variable speed limit the ATEU enforces to the higher speed limit. Under Maryland General Assembly guidelines, Statute §21–809, the fine structure is scaled based on the vehicle speed over the limit:

12–15 MPH over: \$40
16–19 MPH over: \$70
20–29 MPH over: \$120
30–39 MPH over: \$230
40+ MPH over: \$425

Montgomery County is one of the first county governments in the United States to initiate a Vision Zero plan that allocates resources to eliminate serious injury and fatal collisions on County roads for vehicle occupants (drivers and passengers), pedestrians, and bicyclists with the High Injury

Network (**HIN**) and Vulnerable Road Users (**VRU**) on designated road corridors. The HIN and VRU corridors are not limited by speed limit or location in either residential or commercial areas.

Montgomery County Department of Police

Automated Traffic Enforcement Unit

SPEED CAMERA CORRIDORS

NOTE: Blocks listed may include both directions of travel. Additional sites added October 21, 2026 are indicated in **RED**.

The Automated Traffic Enforcement Unit (ATEU) of the Montgomery County Police Department follows Maryland speed camera laws, Statute §21–809, that uses a tiered fine system for vehicles traveling 12 miles per hour (MPH) or more over the posted speed limit in school zones and residential areas. In school zones the hours of enforcement are from 6AM (0600hr) to 8PM (2000hr) on weekdays – and where there is a variable speed limit the ATEU enforces to the higher speed limit. Under Maryland General Assembly guidelines, Statute §21–809, the fine structure is scaled based on the vehicle speed over the limit:

12–15 MPH over: \$40
16–19 MPH over: \$70
20–29 MPH over: \$120
30–39 MPH over: \$230
40+ MPH over: \$425

Montgomery County is one of the first county governments in the United States to initiate a Vision Zero plan that allocates resources to eliminate serious injury and fatal collisions on County roads for vehicle occupants (drivers and passengers), pedestrians, and bicyclists with the High Injury

Network (**HIN**) and Vulnerable Road Users (**VRU**) on designated road corridors. The HIN and VRU corridors are not limited by speed limit or location in either residential or commercial areas.

Montgomery County Department of Police

Automated Traffic Enforcement Unit

SPEED CAMERA CORRIDORS

NOTE: Blocks listed may include both directions of travel. Additional sites added October 21, 2026 are indicated in **RED**.

The Automated Traffic Enforcement Unit (ATEU) of the Montgomery County Police Department follows Maryland speed camera laws, Statute §21–809, that uses a tiered fine system for vehicles traveling 12 miles per hour (MPH) or more over the posted speed limit in school zones and residential areas. In school zones the hours of enforcement are from 6AM (0600hr) to 8PM (2000hr) on weekdays – and where there is a variable speed limit the ATEU enforces to the higher speed limit. Under Maryland General Assembly guidelines, Statute §21–809, the fine structure is scaled based on the vehicle speed over the limit:

12–15 MPH over: \$40
16–19 MPH over: \$70
20–29 MPH over: \$120
30–39 MPH over: \$230
40+ MPH over: \$425

Montgomery County is one of the first county governments in the United States to initiate a Vision Zero plan that allocates resources to eliminate serious injury and fatal collisions on County roads for vehicle occupants (drivers and passengers), pedestrians, and bicyclists with the High Injury

Network (**HIN**) and Vulnerable Road Users (**VRU**) on designated road corridors. The HIN and VRU corridors are not limited by speed limit or location in either residential or commercial areas.
